Anton V. Nikishaev

E-mail: \<me@lelf.me\>, \<anton.nik@gmail.com\>;
Jabber: \<nik_n@jabber.ru\>;
Phone: +7905·301·3643, +7908·3677·123;
Current location: Samara, Russia;

Education

+ **2002–2009 — M Sc** in Mathematics, Samara State Technical University, dept. of applied mathematics and computer science.

  Subject of diploma paper — «Structural Model of Nonlinearly-Elastic Material under the Complex Stress State Conditions in the Presence of Creep». Developed distributed and hand-optimized system for stress calculation.

Skills

+ **Intrests & expertise:** Functional programming, Unix programming, including low-level;
+ **Languages:** C (C′11), C++, Haskell, Erlang, Perl, ... familiar with many more;
+ **Operating systems:** GNU/Linux, everything ∗BSD, Mac OS X.

Work experience

+ **2005–2007** — Samara State Technical University, system administrator;

+ **2007–present** — Samara State Technical University, software developer: scientific calculations, C / Erlang / Haskell / Matlab / (XƎ)LATEX.

+ **2009–2011** — WebZavod LLC, software developer:

  typical small-to-medium size web development — Perl, proprietary CMS, MySQL, client-side programming;

  "Skype killer" application development — SIP/RTP audio and video calls, mobile phone interoperability, SIP presences, twitter support, OAuth;

  Core: GNU/Linux to Windows cross-compiled C++, Haskell;
  UI: HTML5 and JavaScript

+ **2011–present** — freelancing and consulting:
  various areas and technologies, from assembler language to SVG animation.

Extracurricular activities

+ Free software projects: https://github.com/llelf, http://hub.darcs.net/lelf;
+ Small patches to GNU Libc, Glasgow Haskell Compiler, other projects;
+ Awards on contests in mathematics, programming, science & astronomy.
